

DOXEE: IR TOP RESEARCH AND ICM ADVISORS EVALUATE DOXEE TECHNOLOGY

**The innovative Doxee Platform® receives a Technology Equity Score of
4.3 out of 5.0**

Modena, 28 September 2020

Doxee (DOX: IM), a leading high-tech multinational company offering products in the areas of Customer Communications Management (CCM), Digital Customer Experience, and Paperless, announces that IR Top Research, in partnership with ICM Advisors, has rated the Doxee technology with a Technology Equity Score (TES™) of **4.3** out of 5.0.

Doxee's technology assets, evaluated by IR Top Research and ICM Advisors in independent, technology-based research, place the Group as a technology leader in the reference sectors based on five analysis and scoring parameters: quality of technology assets, technology positioning and strategy, technology business impact, technology and IP Management and technology potential.

The research highlights the technological capabilities of the **Doxee Platform®**, the cloud-native platform that delivers the full range of the dx, px and ix lines, available in SaaS and PaaS mode to offer maximum scalability and reliability. This patented Core Asset, in which the company has invested more than **€20 million in R&D** over the past 10 years, speeds up time-to-market for customers by standardizing activation and roll-out processes. The Doxee Platform is designed to interconnect with the leading enterprise applications, thus promoting the adoption of innovative solutions, and thanks to a dedicated team of over 30 highly specialized developers.

The collaboration between IR Top Consulting and ICM Advisors for independent Equity Research on technology focuses on the technological and competitive dimensions of a company, highlighting the relevant information for the evaluation of technological assets, linking strategy with economic-financial performance.
