# Investments

FY 2018-2020

## RESEARCH

Doxee makes significant investments every year for the internal development of the most advanced technologies in the reference markets. In 2020, investments in R&D amounted to € 3.8 million, equal to 14.9% of the production value and 19.1 of revenues. The high level of innovation is evidenced by the subsidies received from the institutions and by the obtaining of 3 patents for the production and generation of audiovisual content.

## MARKETING

2020 saw the further strengthening of the Marketing team and the expansion of Digital Marketing, Marketing Automation and Market Analysis activities, as well as the implementation of its own website. In 2020, investments in marketing amounted to € 554 K equal to 3.1% of revenues.

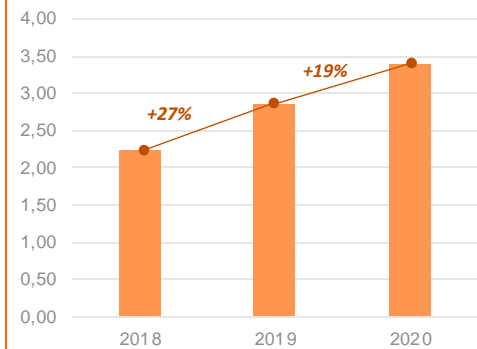

## HUMAN RESOURCES

To meet the needs dictated by the growth of the business, both present and future, Doxee has implemented a recruiting campaign that has generated an increase in the workforce of 20 units. The additions mainly concerned the R&D, Service Operations and above all Delivery ix, a newly established organizational unit dedicated to the production of customized videos.

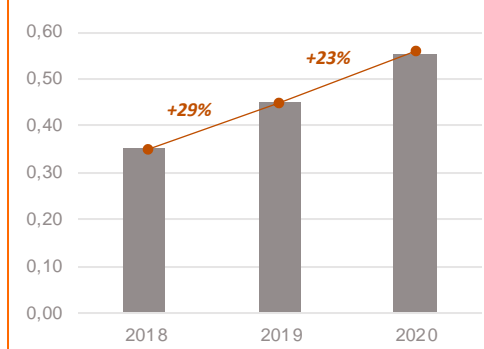

## INFORMATION SYSTEM

In 2020, the company adopted a new software, MS Dynamics 365, for the efficiency and automation of administrative processes. This is part of a context of revision of internal information systems with an expected investment of approximately € 250 K.

# Double-digit growth for Doxee's key markets

## Doxee reference markets

(Customer Communication Management)

Source: Reportlinker

The spread of technologies is deeply changing methods and channels of communication, moving customers from print to technologies.

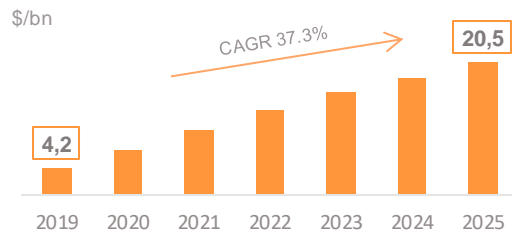

CCM product suppliers evolved and adapted their product offerings to meet consumers' needs for personalized digital experiences.

In the future, communication will be based on cloud analytics, which can determine what the customer is trying to do.

(E-Invoicing, Digital Preservation, E-Procurement)

Source: Billentis

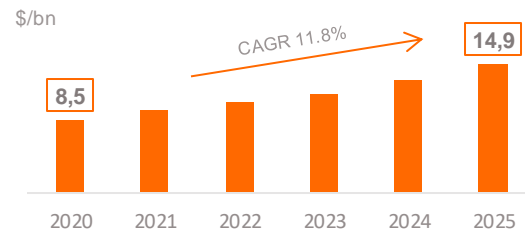

Ongoing EU Directives required in 2019 to more than 300,000 public administrations to be ready for e-invoicing and e-procurement.

Between 2020 and 2035, estimates foresee a reduction in paper invoices, in favour of traditional digital invoices, and above all electronic POS and mobile invoices (thanks to change in payment methods).

(Digital Customer Experience)

Source: Marketsandmarkets

According to a PwC survey, customers are willing to purchase and to pay more for a product if the company provides a great customer experience.

Customer experience helps businesses to reduce consumer churn rate, thanks to better customer support services.
